Student	Detail
221270	The assignments we read were great- more interesting than other classes which provided great class discussion.
221721	yes we read autobiography's which I hadn't before. It allowed the class to relate the the book more
224478	Yes, they were very specific and different from traditional textbooks which made me look forward to class a lot and learn more.
225506	Yes, they were memoirs so they were very interesting and made the class more enjoyable.
226185	Yes they were different because they were lengthier. They made class lectures easier.
229280	No, It was great to read memoirs and articles outside of a textbook-- Kept my interest and was a great way to mix-up the content.
231526	They were more appealing but very heart breaking. It almost did not want you to read them because they were so sad but it was still a very good book.

Student	Detail
220301	Teacher teaches this like a highschool class rather than a college class.
223145	I have always loved writing and found my writing classes to helpful in the past. This class was extremely challenging. I found that I put a extreme amount of effort into my assignments, but didn't receive constructive feedback. I am also a believer in the Writing Center and have been going since first quarter. I found that this was helpful last quarter, but this quarter my teacher keeps insisting I go even though I'm already going. The class was a challenge and I found the instructor to be unhelpful and unwilling to assist her students. As a writer I didn't gain much out of this class, but I did learn to deal with different types of teaching methods and instructors.
225309	Great professor!
227429	The professor was really nice and helpful.
228684	i have an interest in writing, and i'm a very good writer. i learned very little in this class and consistently received A's on assignments.
229563	The articles were not very good in my opinion. Seemed like you rushed to pick them and some of there I really had no idea what they were trying to prove.
231229	No comments
233877	Class would be more interesting if more focus was placed on religions that one knows less about, rather than Christianity and Judaism
236824	I enjoyed this course and the instructor.
237729	I do not feel like taking this class improved my writing very much. The best thing I can take away from this class is how to use the library's search catalog. The professor is very nice and approachable.
240051	Wonderful teacher! I could not have received a better professor. Professor Bryant was very helpful and provided assignments that were challenging but enough that it was not overwhelming. EXCELLENT! :)
248243	Good class
248948	Class was interesting and fun.
249133	Great instructor and a great class!
249683	I liked that the class focused on one primary topic throughout the entire quarter.

13	Comments	0	I have always loved writing and found my writing classes to helpful in the past. This class was extremely challenging. I found that I put a extreme amount of effort into my assignments, but didn't receive constructive feedback. I am also a believer in the Writing Center and have been going since first quarter. I found that this was helpful last quarter, but this quarter my teacher keeps insisting I go even though I'm already going.

			The class was a challenge and I found the instructor to be unhelpful and unwilling to assist her students. As a writer I didn't gain much out of this class, but I did learn to deal with different types of teaching methods and instructors.

185306	useless class. didn't learn anything at all. waste of time and money. remove this as a requirement and add a real class.
192302	Good class, not too demanding because it was a two-credit class. The instructor was always in a good mood and was always very straight forward with what she wanted from us.
194439	Course was quick and didn't seem to add anything useful to my writing. It was similar to a high school one week writing course.
198793	The class seemed to be a waste of time. more than half the class time was just peer review. Nothing was really taught and what was seemed to be contradicted the next class. It was nice to have someone read my resume but i could have gone to the career center and wasted a lot less time.
202331	This class seemed to be an overall waste of time.If it focused only on resumes and cover letters I feel that it could have been more useful.The rest of the material was unnecessary and had nothing to do with business really. The book that we had to read was a book simply based on opinion and not how everyone should write. Style is something that is developed individually, not taught from a book. My style of writing could be different from the writing style of someone else, but both of us could be grammatically correct.
203040	This class was helpful and helped hone my business writing skills.
204410	none
205220	the class was very helpful on learning how to write for business. the book i believe was not helpful but the course itself and assignments were very useful.
212392	Class was alright except I felt like I was in Elementary School again the professor treated us like we were little kids.

Student	Detail
182669	Good writing practice. Did not learn as much as I would have hoped. Helped to keep my essay skills in top shape.
183074	The class is pointless, we hardly learned anything in class. The only reason my writing improved was because I spent hours in the writing center every week.
187041	Professor Bryant-Richards was by far my favorite teacher. I have absolutely no complaints about this teacher, and it was a real honor to have her for my first quarter at DePaul. Everything that we learned had meaning, and all of her assignments were excellent. Her students respected her, and it was a real pleasure to attend her class.
187062	I liked discussion groups and how we got in a circle. I wish the professor would have asked questions about the readings or movies instead of asking what we thought of it. The class would just sit and stare yet when asked a questions, we were prompted to answer and add to the conversation. I know she wanted conversations to just flow, yet we're students, not writing critics.
187142	I don't like writing very much, but the class wasn't bad. The teacher was nice. It was easier to write in it though because I liked the topics we had to write about. Overall, pretty good class and teacher.
188991	I enjoyed this class especially discussions. I feel we got to do three types of genre papers I truly wanted to write about. Overall, I had a good time being stimulated in this class.
192700	the class was okay.
194802	A great teacher for this course.
199237	I now have a better understanding on different writing genres and how to write them. Professor was helpful and I, overall, enjoyed the class.
199943	I like discussing the readings the day after we annotated them. Some of the readings were difficult to relate to/write about. I think the class discussions helped a lot of people develop their writings.
202222	This course had boring material mot of the time which did not spark my interest. I also felt that the grading was unfair because we had to follow a format all the time and was not flexible with it.
203182	Great course, taught by an excellent professor. Her comments were always helpful and encouraging. Almost all of the assignments served an important purpose and each enhanced my writing skills. I am a much better writer thanks to her.
203914	I liked the various writing styles that we did in this class.
205319	The class was great.
212891	This was a great class and it helped me greatly
213998	Professor was very helpful and engaging; assignments were both challenging and intellectually productive.
